| 9. All registered owners have signed the ‘Owners Consent’ section | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. The application is fully completed | <input type="checkbox"/> | <input type="checkbox"/> |

Important Information - please read

If you are considering purchasing a solid fuel heating device (wood heater), here are some tips to help you comply with regulations.

- Check with Council prior to purchasing or installing a solid fuel heating device as you will require either development consent under the *Environmental Planning and Assessment Act 1979* or approval under the *Local Government Act 1993*.
- Choose a heater that is manufactured to the Australian/New Zealand Standard (AS/NZS) 4013-1999 *Domestic Solid Fuel Burning Appliances*, as they are designed so that they cause minimal pollution when operated correctly. A small label that shows certification to AS/NZS 4013 marks these heaters.
- Make sure your heater and flue are installed by a qualified tradesperson in accordance with the manufacturer’s instructions and that it complies with AS 2918-2001 *Domestic Solid Fuel Burning Appliances – Installation*.

It is illegal to install a wood heater that does not meet current Australian Standards or that does not have Council Approval.
