PRICING POLICY SUMMARY

Council's pricing policy generally supports the cost recovery philosophy. It recognises people's ability to pay and balances an expectation that some services will be cross subsidised from rates for the common good of the community.

Pricing will:

- Explore cost recovery opportunities.
- Ensure value for money by providing effective and efficient service.
- Balance fees against rates, grants, and other funding sources.
- Manage financial risk.
- Develop transparent pricing structures that can be administered simply and cheaply, and be understood by the public.
- Develop pricing structures that reflect real life-cycle and environmental costs.
- Recognise pricing encourages or discourages consumer use and behaviours.

FEES AND CHARGES

- Compliant with Part 10 of Chapter 15 Local Government Act (NSW) 1993 and are generally increased by the higher of the September to September CPI, or IPART's Local Government Cost Index.
- For amounts under \$10.00 they will be rounded to the next 10c and amounts over \$10.00 are to be rounded to the next whole dollar (inclusive of GST).
- Fees and charges are listed in a document available for inspection at Council offices / website.
- Developer Contributions for roads/water/sewer in this review have been increased by the relevant index.
- Rentals in leases are to be increased to the maximum allowed under the terms of each individual lease.
- Some fees may be bundled into a zone inspection fee for account and inspection purposes.
- The Local Government Council Fixed Penalty Handbook lists a number of penalties relating to various Acts and Regulations. Council reserves the right to apply these as appropriate to the offence. Penalties are not all individually listed.
- Credit Cards Accepted: Only Visa and MasterCard are accepted for payments made by credit card.
- Credit Card Surcharges: For payments made by credit card through Council's cashier and internet, an administration fee of 1% applies on the total value of the credit card payment, including GST if applicable. GST is included, or not included, to the same extent that GST applies, or does not apply, to the underlying service.
- No fees apply to payments made by direct debit or via BPAY.

FULL COST RECOVERY (FCR)

Recovery of costs including direct, indirect, allocated overheads and opportunity cost of capital associated with providing a service. In some cases, provision may be made for future expenditure (such as pricing in the 'marginal cost' of next upgrade or proposal to increase service levels). If the costs increase during the financial year, the fees will automatically be adjusted.

PARTIAL COST RECOVERY (PCR)

Subsidised operations which are of benefit to the community as a whole, particularly keeping low-income users in mind.

MARKET PRICING (MP)

The price of the service is determined by examining alternative prices of surrounding service providers. Council will not use subsidies to compete unfairly or price others out of the market where services are of the same quality.

STATUTORY FEES (SF)

Statutory fees are charged at rates defined by government through relevant legislation, regulations and certificates. These fees will only be varied by changes to the legislation concerned.

DEMAND MANAGEMENT

Develop pricing structures that reflect real life cycle and environmental costs and recognise pricing encourages or discourages consumer use and behaviours. These include water, sewer, trade waste and waste charging.

COMMUNITY SERVICE OBLIGATION

Council is mindful of the effect of its pricing policies when considering the 'bottom line' cost of services or products, or its intention to encourage or discourage consumption or usage patterns. Council may choose not to recover the full cost of delivering a service or product, in recognition of the community's interest in having that service subsidised to enable access to that service by most users. That 'subsidy' is considered a community service obligation and generally applies where the fees and charges schedule discloses 'partial cost recovery' or 'statutory fees'.

RATE OF RETURN PRICING

Pricing for entrepreneurial activities, including investments in financial institutions, will be aimed at securing the optimum return from the assets concerned. Dividends may also be secured from water and sewer assets based on best practice pricing principles, benefiting the general and environment fund.

DEVELOPER CONTRIBUTIONS

Contributions from developers reflect the costs of providing infrastructure (roads, drains, sewerage etc), open space and recreational facilities needed to meet the additional needs of the community created by new development and to make sure existing local amenity does not diminish.

PRIVATE WORKS

Work done by council on private land will be charged at rates to recover all costs associated with labour plant and materials plus a component to cover administration and a commercial return.

GST

Goods and Services Tax (GST) has been included in this document on those fees and charges that are considered to be for a taxable supply. Those fees and charges that are of a regulatory nature are GST exempt.

GST has been included on or excluded from fees and charges in a manner consistent with the Commonwealth Government's A New Tax System (Goods and Services Tax) Act 1999 and Division 81 Determination. Should this legislation be amended, the current treatment of GST and the impact on the relevant fees and charges will be reviewed.

Development Application

Town Planning (E.P. & A. ACT)

In determining the fee for development Council will use a genuine estimate of construction costs along with costs associated with ancillary works required for use of the building e.g. driveways, retaining walls. Current industry standards for construction of per m² will be utilised where signed contracts are not produced.

The DA assessment services fee covers:

- Receipt & internal referrals
- Review DA & request further information
- Inspect site & assess impact under s79C
- Negotiate improved outcomes
- Prepare Council report
- Prepare instrument of determination
- Notify of determination (including registration)

Modification of Consent [continued]

Modification of Consents (S96(2) E.P.A.) – significant and Section 96AA(1)	EP&A Act	N	SF
(2) The maximum fee for an application under section 4.55(2) of the Act, or under section 4.56(1) of the Act in respect of a modification which, in the opinion of the consent authority, is not of minimal environmental impact, is— (a) if the fee for the original application was less than \$100, 50 per cent of that fee, or (b) if the fee for the original application was \$100 or more— (i) in the case of an application with respect to a development application that does not involve the erection of a building, the carrying out of a work or the demolition of a work or building, 50 per cent of the fee for the original development application, and (ii) in the case of an application with respect to a development application that involves the erection of a dwelling-house with an estimated cost of construction of \$100,000 or less, \$190, and (iii) in the case of an application with respect to any other development application, as set out in the Table to this clause, plus an additional amount of not more than \$665 if notice of the application is required to be given under section 4.55(2) or 4.56(1) of the Act. (2A) An additional fee, not exceeding \$760, is payable for development to which clause 115(3) applies. (3) The consent authority must refund so much of the additional amount as is not spent in giving the notice under section 4.55(2) or 4.56(1) of the Act. (3A) The consent authority must refund the additional fee paid under subclause (2A) if the development is not referred to a design review panel. (4) In this clause— (a) a reference to an original development application is a reference to the development application that resulted in the granting of the consent to be modified, and (b) a reference to the fee for the original development application does not include a reference to any fee under clause 252 that was payable for the giving of notice. (4A) A reference in the Table to this clause to an estimated cost is a reference to the estimated cost of the development for which development consent was granted. (5) This clause does not apply to an application for the modification of a development consent granted by the Land and Environment Court on appeal from some other consent authority.
